What is Career Counselling?

Dictionary meaning of the word '**counselling**' is to analyze the thought process of an individual and provide feedback as to which path should be chosen. This is a method used in various fields of education and work.

By the use of this process, counselors map the activities, thoughts and interests of a person and help him/her make choice between different options. Counselling in the field of education has become very important because of the wide variety of subjects available, competition in all fields and changing technology. Students these days are at cross-roads about which career to choose and which not.

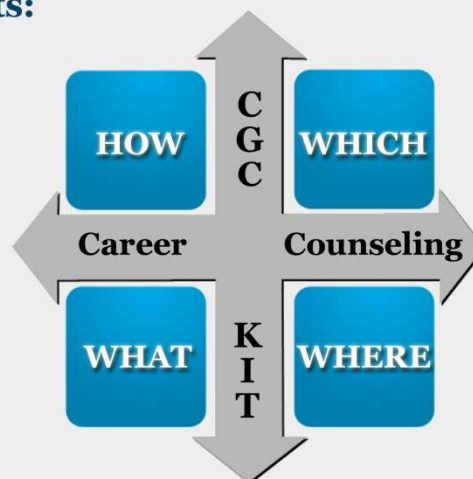

In such situations, counseling helps students realize their potential and guides them towards their goals.

Students get to know their abilities or aptitude and can also gather knowledge about their field of interest.

“What is the recipe for successful achievement? To my mind there are just four essential ingredients: Choose a career you love, give it the best there is in you, seize your opportunities, and be a member of the team.” -- Benjamin F. Fairless

CGC's Career Counselling Kit Will answer the following doubts:

- **HOW**
How do I know what are my skills?
- **WHICH**
Which course is right for me?
- **WHAT**
What career opportunities do i have?
- **WHERE**
Where will I get practical training?

About CGC's Career Counselling Program (CCP)

As a part of the social activities, **Chandigarh Group of Colleges (CGC)** initiated the concept of **Career Counselling** way back in 2005. Since then, a dedicated team of over 50 people work day and night to educate the students, which helps them taken an informed decision. The Career Counselling team at CGC visits various towns and villages of the North Region in order to interact with the students and educate them on various Career Options available in the market. Every year thousands of students from various parts benefit out of these expert Counselling sessions delivered by the learned Counsellors of CGC.

In order to stream line this huge response of students, CGC has now initiated an easy Registration Process through which student can avail a large number of benefits, free of cost.
