Category 2 — AI & Prompting

Prompt Wars

Given a target output, race to craft the winning prompt.

Format: Live on screen

Participation: 2 members

Duration: 1 hour

Tools: Any specified AI model/tool

Basic Concept of the Event

Teams compete head-to-head. All are shown the same target output — a webpage snippet — and race to write the best prompt to get an AI model to reproduce it as closely as possible. Whoever gets the closest match first (or has the best match when time runs out) wins the round and advances.

Rules

1. Each round has a fixed time limit.
2. A round ends early if a player's output is judged an exact/near-exact match by the panel, with instant win.
3. If time runs out without an exact match, a judging panel decides the closer match.
4. Copy-pasting the exact target text/description as the prompt is not allowed — prompts must be original phrasing.

Note: Final positions and winners will be declared depending upon the entries only.

Judgement Criteria

- Closeness of AI-generated output to the target (visual/textual similarity).
- Speed — time taken to reach the winning output, used as a tie-breaker.
