Real or AI

A stage and audience event — images, text, and audio flash on screen and the crowd votes live: real or AI-generated?

Participation: Individual

Duration: 45 minutes

Format: Rapid-fire stage rounds with live voting

Rounds: 5–8 rounds

Basic Concept of the Event

A fast, fun stage event where a series of images, pieces of text, or audio clips are shown on the big screen, and the audience votes live on whether each one is AI-generated or made by a human. Great energy filler event between the bigger competitions.

Rules

1. Each round shows one sample (image/text/audio) for a fixed viewing time. (eg. 20 seconds)
2. Audience votes using the provided method (live polling app, show of hands, or physical clicker/token system).
3. The host reveals the correct answer after each round along with a brief explanation of the cues used to identify the sample.
4. No looking up the samples online during the round — participants competing for the prize found doing so will be disqualified from the prize pool.

Note: Final positions and winners will be declared depending upon the entries only.

Judgement Criteria

- For competing participants: number of correct guesses across all rounds.

Participation Fee

Cash Prizes to the Winners:

1st Position: **Rs. 5000**

2nd Position: **Rs. 3000**
