

CHRONICLE

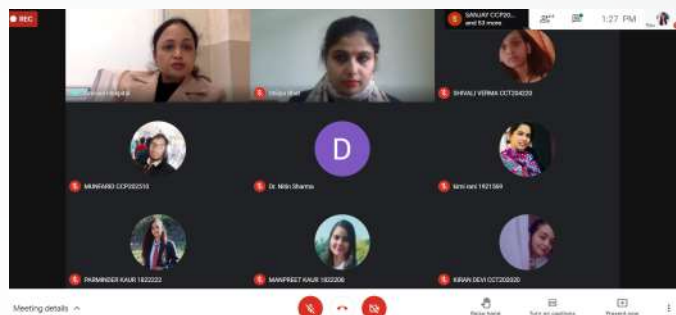

FEBRUARY 2021

To make the fresher's aware a session towards the awareness, precautions, and how the vaccine is required for prevention and safety was conducted by Dr. Onkar Gupta Senior Consultant, Max Super Speciality Hospital, Mohali

Acknowledging our role in bringing awareness on cancer among the youngsters on World Cancer Day and following 2021's theme of I Will And I Can, our Department Of Biotechnology organised an online event for the students.

Various healthcare experts were invited to acquaint students on types, symptoms and prevention of Cancer. Dr. Rupali Aggarwal, Senior consultant, Radiation Oncology, Grecian Hospital Mohali discussed various aspects of cancer, Dr. Ruchita Dhingra, Asstt. Medical superintendent, Grecian hospital, mohali talked on BreastCancer and its consequences and Ms. Shilpa

Bhanot, Project Manager, MNC and expert in Yoga and Meditations, motivated youth about life. Along with this, students also participated in various competitions like slogan writing, poster making and declamation.

In a virtual competition held by the (UniSA) named Socia lEnterprise Case Competition, a team of 2 students Pankaj Sharma and Monika from our Chandigarh Business School of Administration secured the first Runner-up position along with being chosen best among the Indian teams. A cash prize of \$500 was given to the team.

The competition was based on the unique challenges faced by people in a rapidly developing world wherein cross cultural teams from UniSA, India, Bangladesh & Sri Lanka competed in three phases of developing, preparing & presenting the business plan.

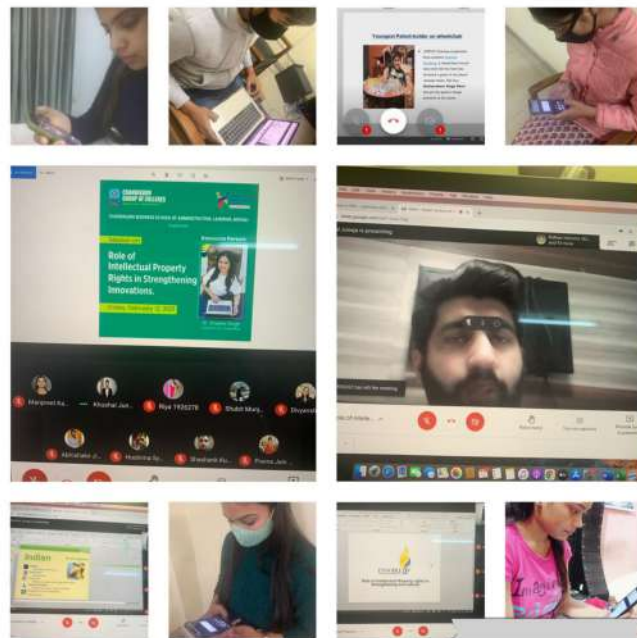

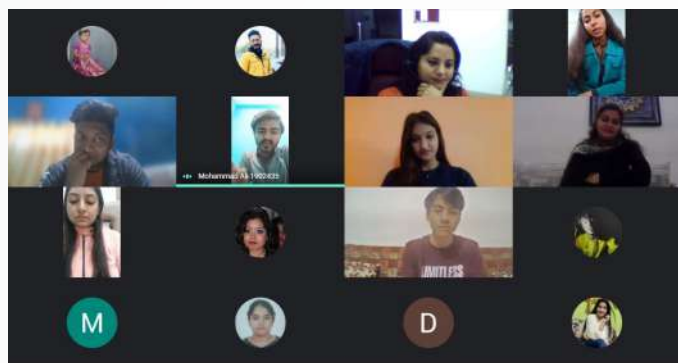

Our Department of Electronics and Communication along with Department of Student Welfare commemorated the World Radio Day with our students, a myriad of events provided them with an opportunity to enhance their knowledge about the field of radio along with exhibiting their debating and RJing skills.

Mr. R.K Singh ICT & Broadcast Media Consultant, former Engineer-in-Chief, Doordarshan undertook an enlightening session with the students on 'Broadcasting in Digital Domain'. This was followed by other events namely Be an RJ, Parliament House - online debate competition & ThoughtBots - a technical quiz. Golmaal Gagan from My FM was also a part of the event.

Chandigarh Business School of Administration organized an Expert Session on 'Role of Intellectual Property Rights in Strengthening Innovations', which was delivered by Mr. Khushal Juneja, General Manager- Ennoble IP.

Having vast experience in Patents Research and Analytics, Patent Prosecution, Trademark and Design Prosecution, he successfully guided students on the practical applicability of Intellectual Property Rights with the view to help them create a vision for initiating their own start-ups.

Vibrantly dressed students and faculty and their faces gleaming with hearty laughter, colourful kites swaying in the air and a myriad of jovial activities marked the Basant Panchami celebrations in the campus. The students gave splendid performances and also enthusiastically took part in the kite making and kite flying competitions. The celebration concluded with everyone dancing to the tunes of the DJ.

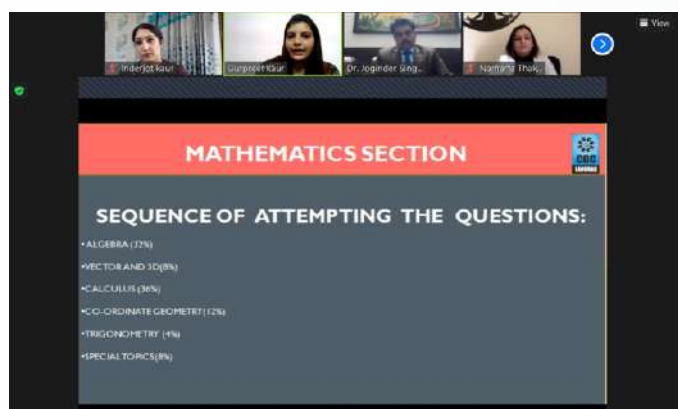

COVID19 has already taken a toll on our lives for almost a year now and the danger still seems to be lurking around and we should not be taking it easy and too casual. To make the fresher's aware a session towards the awareness, precautions, and how the vaccine is required for prevention and safety was conducted by Dr. Onkar Gupta Senior Consultant, Max Super Speciality Hospital, Mohali

Cracking the JEEMains is every student's dream and to make that dream come true a Webinar on "Last Minute Tips to Crack JEE Mains" was organized by Chandigarh Group of Colleges, Landran, on 20th February. This year onwards the JEE Mains exam is to be held four times a year thus the students get multiple opportunities to appear for it. To make things easier the renowned CGC faculty and subject experts of Mathematics, Chemistry, Physics held a very engaging session clearing student doubts and answering their queries along with giving them tips on time management and how to concentrate and patiently crack the questions with a stress-free mind. The session

saw huge student participation and proved to be an enlightening one!
