To mark the occasion of World Environment Day, the Department of Student Welfare in association with Mahatma Gandhi National Council of Rural Education organized a National Level Photography Competition on the theme of 'Time for Nature'.

200+ entries were received from across the nation, out of which, 14 photos were selected in the final round. Among these, 10 were awarded certificates, and the top 3 positions were bestowed with cash prizes along with certificates.

Top 3	
TUSHAR NARULA	1st
DEEPA GURJAR	2nd
ADITYA NARAYAN	3rd
AYUSH SITHTA	3rd

TOP 3

DEEPAK GURJAR 2nd POSITION

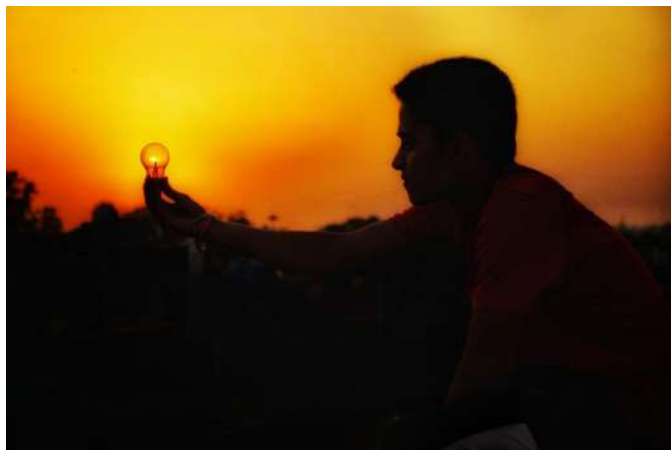

The Near Future
With this picture I want to depict the water that is being wasted in the present time shown by the subject (glass) kept in focus at the 'Rule of Thirds' and blurred background (greenery) depicting the depleted resources and degraded nature in the near future.

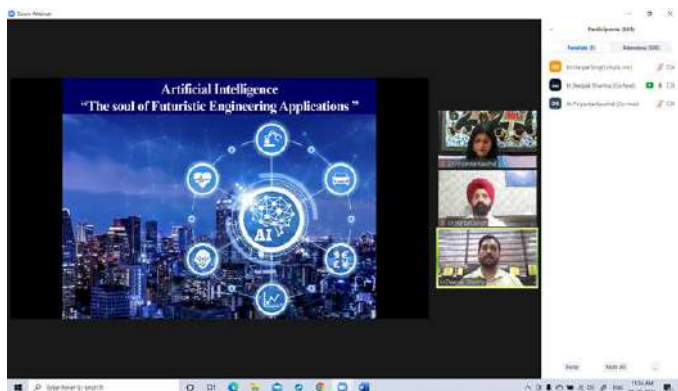

AYUSH SITHTA 3rd POSITION

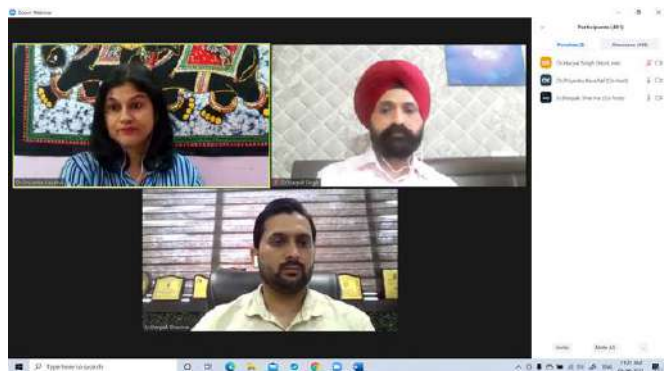

ADITYA NARAYAN MISHRA 3rd POSITION

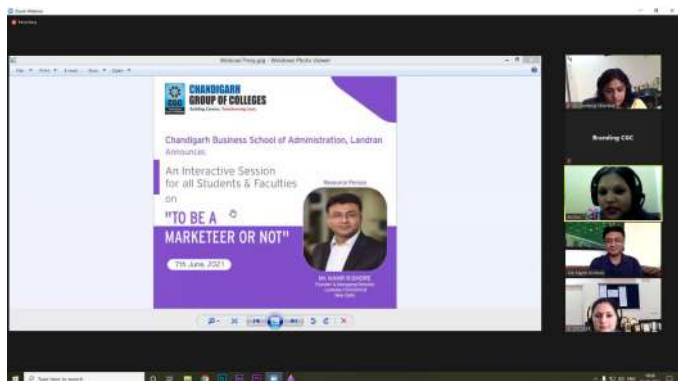

Artificial Intelligence and Machine Learning have truly transformed the world we live in and will continue to do so in the times to come. Because these technologies have become so crucial for the modern world, our Department of Applied Sciences organized a thoroughly enlightening session to highlight

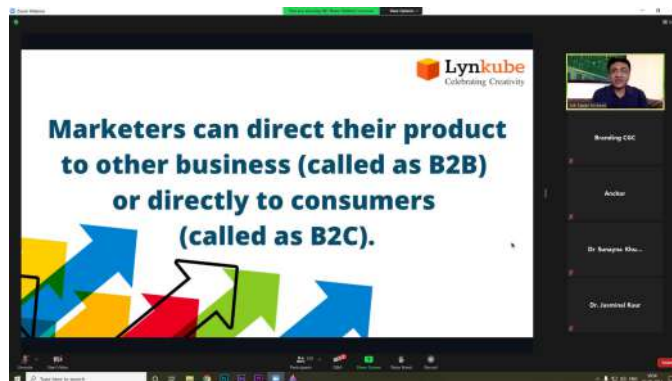

the significance and application of these technologies. More than 500 students from all the streams of Engineering attended the webinar, which was undertaken by Er. Deepak Sharma, Project Manager, R&D department, Eureka Electrosoft Solutions Private Ltd., Mohali.

The MBA department of Chandigarh Business School of Administration organized a webinar 'To be a Marketeer or Not' to provide an understanding to the students on the core concepts of marketing with special reference to DigitalMarketing.

The session was undertaken by an expert panelist Mr. Namr Kishore, Founder and Managing Director of Lynkuba I Entromind, New Delhi. Attended by 320+ participants, the session truly enlightened them on the fundamentals skills required to be a successful marketer.

The Dept of International Affairs has introduced a new series wherein International speakers from different areas of expertise would be taking interactive sessions with our students to provide them with global exposure.

As we know that international travel is restricted amidst the pandemic, these sessions proved helpful for the students to garner significant knowledge from across the world at the convenience of their homes.

Talk 1 was organized for the B.Ed students on "Future of Education on COVID and Beyond", which was undertaken by Dr. Pinky Jain, Principal Lecturer in Primary Education from the University Of Worcester, UK. Citing numerous examples from the education sector, she discussed how we can introduce few changes in the way of imparting knowledge that can go a long way in

bringing a better understanding of concepts as per the present situation.

Our Commerce students stunned us with their beautiful creativity as they participated in Poster Making Competition, organized by their department on the topic 'Environment Restoration'. Their posters perfectly depicted important aspects of Environmental Conservation and redevelopment.

A total of 22 students participated and here is the list of winners!

1st Position - Anshika Suri (B.com 2nd sem)

2nd Position- Vipul khanna (B.Com 2nd sem)

3rd Position- Aarti Jagga & Radhika (B.Com 2nd sem)

We conducted yet another COVID19 vaccination drive on the campus in association with Civil Hospital, SAS Nagar, and with the support of Shri. Jagdeep Sehgal (SDM) for the employees who missed taking the dose during the

first drive that took place in April.

Vaccination is the need of the hour and we are ensuring that all our faculty and staff get fully vaccinated at the earliest. Catch the glimpses of today's drive here!

The Information Technology Department of Chandigarh Engineering College, CGC Landran has kick-started its 5-day Faculty Development Program on "Advanced Cyber Security & Forensic" in collaboration with EICT Academy- Indian Institute of Technology Kanpur. 250+ faculty members from different colleges are attending the program, which aims to

enhance their knowledge on the concepts of cybersecurity and its role in criminal investigations. CyberSecurity is one of the most crucial aspects of today's time and this FDP will ensure that the faculties are well-versed with its important facets and in turn help the students effectively understand them.
