Seeking the blessings of the almighty for successful beginning of the new academic session

The Bhog of Sri Akhand Path Sahib ji was solemnized at CGC Landran followed by Ardas, Kirtan and Samapti as a mark of a blessed start to the new Academic Year.

Our Chairman Satnam Singh Sandhu and President Rashpal Singh Dhaliwal along with management officials and faculty extended their gratitude to the Almighty and wished for everyone's well-being amid the Corona virus pandemic.

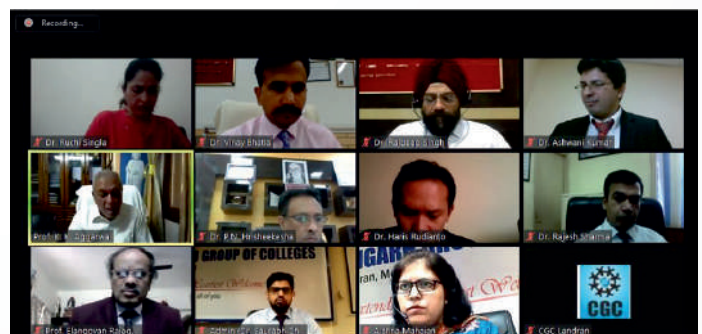

Conveying his best wishes, Chairman Satnam Singh Sandhu said, "We are going through the unprecedented times of the pandemic but I'm grateful to the CGC team for putting their best efforts to ensure that students' education is not hampered in any way. I pray that things get back to normal as we dearly miss the students and wish to see the hustle-bustle to return to the campus. Also, we all must pray that the world successfully wins the battle against COVID-19 and everyone is blessed with good health and success."

CGC Landran hosts 2-day International Conference

Chandigarh Engineering College, CGC Landran has organized a joint 2-day International e-Conference on Contemporary Advances in Mechanical Engineering and Innovations in Communication Computing and Sciences by the Department of Mechanical Engineering (ME) and Department of Electronics and Communication Engineering (ECE) respectively. More than 500 participants including researchers, students, research scholars, academic scientists, and faculties from around 12 countries attended Day 1 of this virtual conference.

Prof. K.K. Aggarwal, Chairman, NBA, graced the conference with his benign presence as the Chief Guest. Expressing his gratitude, he said, "Today, engineers should be taught to adopt interdisciplinary approaches in problem-solving. For instance, a Mechanical Engineering pursuant can take up projects with the Electronics and Communication Engineering students and come up with distinct solutions to a given problem. It's time we think beyond the boundaries and let innovation be the key. Such conferences truly help students to broaden their horizon and I'm glad to see that Chandigarh Group of

Colleges, Landran has time and again organized such international conferences for the young minds and has once again been successful in conducting one (virtually) even during the time of the Coronavirus pandemic."

Prof. Elangovan Rajagopalan, KCT College, Chennai and
Former Scientist, ISRO was the Guest of Honour and

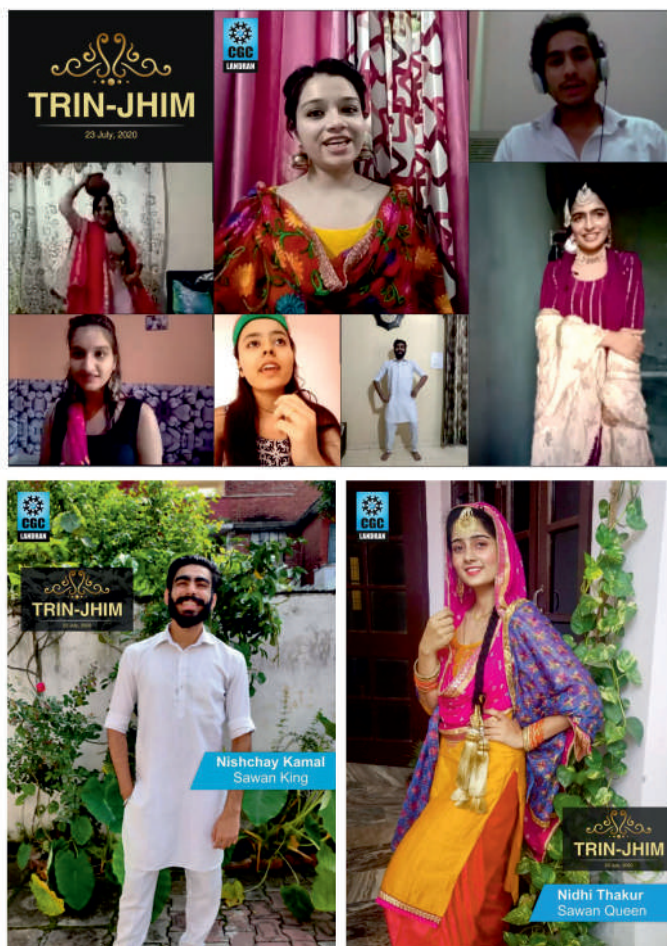

shared his valuable thoughts. The keynote speakers for the 2-day conference includes Prof. Joan Lu, University of Huddersfield, United Kingdom, Prof. Minvydas Ragulskis, Kaunas University of Technology, Lithuania, Dr. Ashwani Kumar, Monmouth College, Illinois, USA, Dr. Haris Rudianto Head of Advanced Materials Laboratory, Gunadarma University in Indonesia.

The conference enlightened participants on the latest trends, technological advancements and challenges in the aforementioned branches of engineering. A total number of 269 research papers including 167 for ECE and 102 for ME were received from researchers and scholars from across the country out of which 88 from ECE and 53 from ME will be published in the Journals.

Vibrant online Teej Celebrations by the Dept of Student Welfare

The virtual celebration of Teej i.e. 'Trin-Jhim 2020' was a sheer confluence of enthusiasm, vibrancies and bliss. Students from all the programs participated with great zeal in the various activities which were organized for this celebration. The students though at home but were fully charged and took part with full enthusiasm. On the occasion our Chairman Satnam Singh Sandhu addressed the students on the the new normal in education, the virtual initiatives being taken by CGC Landran both in imparting knowledge and organizing cultural events and how much the management and faculty miss the students in the campus!

Presenting the list of winners and the title holders of Sawan King & Queen! And a sneak peek into some of the other activities

New Academic Session commences as per the New Normal

A virtual Orientation Program was conducted for the 2nd year students of CSE to mark the beginning of the new Academic Session. As we have to resort to the online classes amidst the Corona virus pandemic, we are all prepared for the New Normal.

In the orientation program, the students were familiarised with their subjects and lecturers and were encouraged to keep exploring and innovating. They were further briefed about the new SOPs of the online learning paradigm and other important aspects.
